Email: stephenujah@yahoo.com

Profile:

A detailed oriented and result-driven software developer seeking to work in an environment where I can utilize and enhance my skills to contributing to cutting-edge projects.

SKILLS AND EXPERTISE

- ❖ Stacks include: HTML, CSS, JavaScript, TypeScript, Bootstrap, Tailwind, Firebase, React-Redux, Nodejs, Express, MongoDB.
- ❖ Interpersonal skill and handles responsibilities with minimal supervision.
- ❖ Proficient in Debugging and problem-solving.
- ❖ Communication skills and teamwork skills.
- ❖ Experience with various Dev-Tools that optimizes performance.
- ❖ System Configuration and Networking

WORK EXPERIENCE

❖ ENSEEDLING LIMITED, LONDON

April – Sept. 2023

Position: Backend Developer Intern

Roles and Responsibilities:

- Design and implement efficient and scalable database schema, models, and queries.
- Develop API endpoints for a learning management system project using Node.js, Express.js, MongoDB and Firebase.
- Write clean, maintainable, and well-documented code.
- Participate in code reviews and contribute to the development of coding standards.
- Collaborate with the frontend team to integrate backend functionality with the user interface.
- Troubleshoot and debug issues, providing timely resolutions.
- Ensure the security and integrity of data by implementing appropriate measures.

COMPLETED PROJECT

Successfully completed an EdTech project. The project involved developing a learning management system that provides functionality for managing courses, enrollments, users, assignments, and feedback. The project utilized Node.js, Express.js, and MongoDB for the backend implementation, allowing users to access and interact with the system through well-designed API endpoints.
