## Profile:

*A detailed oriented and result-driven software developer seeking to work in an environment where I can utilize and enhance my skills to contributing to cutting-edge projects.*

## SKILLS AND EXPERTISE

- ❖ Stacks include: HTML, CSS, JavaScript, TypeScript, Bootstrap, Tailwind, Firebase, React, Nodejs, Express, MongoDB.
- ❖ Responsive designs and cross-browser compatibility.
- ❖ Interpersonal skill and handles responsibilities with minimal supervision.
- ❖ Debugging and problem-solving.
- ❖ communication skills and teamwork skills.
- ❖ Experience with tools such as VS Code, Dev-Tools, git, GitHub. etc.

## WORK EXPERIENCE

### ❖ ENSEEDLING LIMITED, LONDON

April 2023 Till Date

**Position: Backend Developer Intern**

**Roles and Responsibilities:**

- Design and implement efficient and scalable database schema, models, and queries.
- Develop API endpoints for a learning management system project using Node.js, Express.js, and MongoDB.
- Write clean, maintainable, and well-documented code.
- Participate in code reviews and contribute to the development of coding standards.
- Collaborate with the frontend team to integrate backend functionality with the user interface.
- Troubleshoot and debug issues, providing timely resolutions.
- Ensure the security and integrity of data by implementing appropriate measures.

### COMPLETED PROJECT

Successfully completed an EdTech project. The project involved developing a learning management system that provides functionality for managing courses, enrollments, users, assignments, and feedback. The project utilized Node.js, Express.js, and MongoDB for the backend implementation, allowing users to access and interact with the system through well-designed API endpoints.

❖ **IMAGINATION WORKS**

**2022 Till Date**

**Position: Frontend Developer**

**Roles and Responsibilities:**

- Develop and maintain user interfaces using JavaScript, React and other web development frameworks.
- Collaborate with a team of UI/UX designers and developers to create user-friendly, responsive websites and web applications.
- Write clean, reusable and efficient codes while adhering to best practices and coding standards.
- Integrate external APIs/Web Hooks for authentication, file storage and payments.
- Write test-driven code and use JavaScript testing frameworks such as Jest, Cypress etc. to ensure the quality and performance of the applications.
- Participate in code reviews, debugging and problem-solving to ensure code quality and maintainability.

❖ **BJ-BISON VENTURES LTD.**

**2018 – 2020**
